RST7

Manual airless high pressure gun

CE Ex II 2GT6 X

Manual airless high pressure gun ideal for spraying high viscosity materials using large diameter hoses even in extreme conditions. 500 bar. The robust and ergonomic construction and the swivel connection make the RST7 handling practical and light in any condition. With an increased material passage diameter, RST7 is also suitable for the application of fillers such as glues and sealants or for particularly viscous protective coatings. The spray gun is made of sturdy, high-quality materials for long-term use.
It can be used with nozzles for silicon and FM6 reversible tips.
