

BEAR

Spray lance for low pressure paint spraying

CE  II 2GT6 X

Spray lance for low pressure paint spraying suitable in the construction sector for medium-large surfaces, for all liquid and pasty products with a grain size of up to 2.5mm. Bear has an ON-OFF remote control that works through the valve of the lance. By opening or closing the gun valve it's possible to decide if activate or switch off the pump connected. It's suitable for the Mistral pump and other peristaltic pumps from the main brands in the field.
