

PNEUS

Professional paint spraying systems for pipes

CE  II 2GT6 X

Airless high pressure spray gun ideal for internal painting of pipes. These painting systems are designed and manufactured with a compact and robust gun body, while all parts in contact with the material are in stainless steel. It can work with pipe from a minimum diameter of 450mm to a maximum of 750mm. On request it's possible stretch the arms up to 1200mm. Pneus has a rotating pneumatic motor, which allows the continuous rotation of the nozzle, ensuring the complete coating of the inner surface of the pipe. 400 Bar.

COD	DESCRIPTION
TT80000	Pneus airless gun with rotating engine L320 arm
TT80001	Pneus MAXI airless gun with rotating engine L700 arm
