

RILSAN HOSE

Rilsan hose

COD	DESCRIZIONE	MT.
35024	Hose Rilsan PA 12 mm 2x4	mt 100
35046	Hose Rilsan PA 12 mm 4x6	mt 100
35068	Hose Rilsan PA 12 mm 6x8	mt 100
35810	Hose Rilsan PA 12 mm 8x10	mt 100
35112	Hose Rilsan PA 12 mm 10x12	mt 100
ROLLS OF 100 MT		

Technical specifications

Technical-constructive features: rilsan hose

Application: these hoses were created for the conduction of paints, oils, air, water-based fluids, foods, chemically aggressive fluids and steam.

Working temperature: from -40° C to +80° C.

For water-based fluids operating temperature +70° C.

Temperature peaks: max +100° C. If the duration or frequency of the peaks is relevant, the service life of the pipe may be reduced.

Specifications: DIN 73378 - DIN 74324
