

PNEUS

Professional paint spraying systems for pipes

Airless high pressure spray gun ideal for internal painting of pipes. These painting systems are designed and manufactured with a compact and robust gun body, while all parts in contact with the material are in stainless steel. It can work with pipe from a minimum diameter of 450mm to a maximum of 750mm. On request it's possible to stretch the arms up to 1200mm. Pneus has a rotating pneumatic motor, which allows the continuous rotation of the nozzle, ensuring the complete coating of the inner surface of the pipe.

Maximum pressure: 400 Bar.

Available standard nozzles and extensions cable.

COD	DESCRIPTION
